Your Support is Critical to Our Success

Lines for Life, in partnership with the Oregon Health Authority and our community collaborators, is excited to host the **2026 Oregon Suicide Prevention Conference (OSPC): All of Us for All of Us: Building Community Connections for Suicide Prevention.**

We recognize that suicide is not an isolated clinical concern, but a multifaceted community health issue deeply intertwined with social, economic, and systemic factors. Our mission is to move beyond traditional behavioral health silos to build a resilient ecosystem of care that centers equity, honors lived experience, and prioritizes upstream wellness across the entire lifespan.
